

Edison's Light Bulb

Edison's Light Bulb

Material:

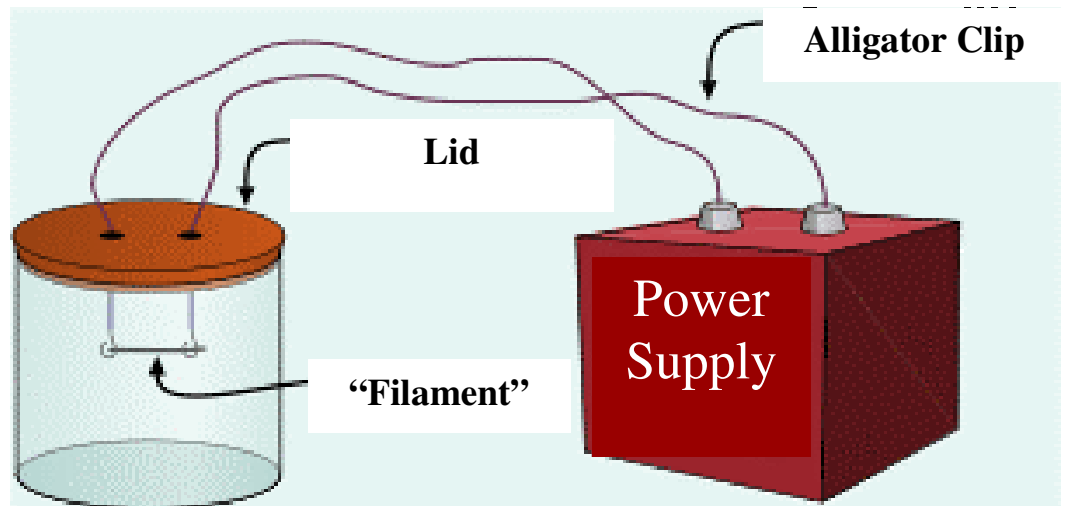

- Jar
- Power supply
- Small wire
- Medium wire
- Large wire
- Steel wool
- Copper wire

1890 Edison Light Bulb 40 Watt

Instructions:

1. Choose a filament
2. Connect the filament to the alligator clips under the lid.
3. Place the filament into the jar and close the lid.
4. Hook the free ends of alligator clips to the power supply. What happens?
5. Which filament works best?

Here's how to set up your "Make a Light Bulb" experiment
